Why "real" new york pizza?

Antonio's Real New York Pizza contains the word "Real" for several reasons. Both sides of Antonio's family emigrated to NYC through Ellis Island in 1905 and 1906 respectively. Antonio is married to a 4th generation Italian American from New York and their children are 5th generation Italian-New Yorkers.

"Real" also means that the pizza we serve is not New York "style", rather, it's the genuine article. We make our sauce and dough here fresh every day. The fresh mozzarella used on our wood-fired Neapolitan pies and in our caprese salads is made right here from fresh curd, by hand. Our tomatoes are San Marzano from Italy, our olive oil is extra virgin, also from Italy, as is our Caputo 00 flour. Quality is the hallmark of true New York pizzerias, not to mention the Italian shops who have held their head high for centuries. Antonio's combines both of these building blocks as the foundation for the best tasting pizza you will find.

Our standards are ridiculously high as is the integrity with which we operate. Prepare to be treated like family while tasting Italian delicacies the likes of which you may have never tasted previously. Thank you for the opportunity.

When taste matters, come to Antonio's!
