Both sides of Antonio's family emigrated to NYC between the years of 1900 and 1906.. Antonio is married to Tracey, also a 4th generation Italian whose family arrived in Brooklyn around the same time. Their children are 5th generation New York Italians.</p> <p>Real also means that the pizza we serve is not based on a style but is actually the genuine article. A 118 year lineage between Brooklyn, the Bronx, Montclair, NJ and Long Island sets our authenticity apart. Our sauce and dough are made here daily. Fresh mozzarella is made from curd, by hand. Our tomatoes are imported San Marzano, our flour is Italian Caputo 00 and our EVOO Italian.</p> <p>Quality is the hallmark of New York pizzerias and Italian shops who have held their heads high for centuries. Our lineage comes with a very high set of standards and integrity. As such, our ingredients are the best tasting we could find regardless of cost. Antonio's combines all of these building blocks as the foundation for the best tasting pizza you will find.</p> <p>Food Network Magazine featured us as one of the top 5 restaurants in Rocky Mountain National Park in August 2016. In 2017 we opened our second store. In 2018 Antonio gave a featured demo at the International Pizza Expo - Las Vegas.</p> <p>Follow us: Facebook: fb.com/antoniosnewyork Twitter: @antoniosnewyork</p>
